## FORWARD

The following data comes to show how society's methods of control over the civil population is the very source of the need of control. Humanity is fragmented, we think we are many different but we are all the same we are ONE planet. The very need of the "others" exists only as a use of having a "big scary wolf" to tell about. Fundamentalist, fascist's, terrorist, ISIS, Russia and North Korea they all want control over people that is why fear is there weapon. Yet they are the one that creates a need for a control. It is like growing vermin and crying out for more means to kill the vermin.

Humanity divided. It's madness at its peak. This only serves the dictators, it is to enslave us. But many are all those who have become deeply enslaved by fundamental thoughts. Let's try to save as many as possible.

## BACKGROUND

We have all read the news about people hearing voices going to attack now recently 3 women has been attacked by men, without any real reason for it. I myself have heard voices in my mind and this work is to show how the method of putting in voices in a person's head goes about.

### Seattle Pacific University in 2014

Aaron Ybarra, 29, testified he thought God wanted to sacrifice and "show others of damage that goes on in the world." He said he told his brother that a voice of one the Columbine shooters "demanded and commanded me to do a massacre." He added that he drank so he wouldn't hear the voices and calm his nerves. Drinking "shut down the plan," he said.

## Fort Lauderdale Airport Shooting

The suspect believed to have shot five people to death in a rampage at a Florida airport Friday was being treated in Alaska after complaining of hearing voices and had recently claimed to the FBI that the CIA was forcing him to watch ISIS videos, federal officials said.

## MIND CONTROL A METHOD

*This is part of an event happening during me working for Alf. Now this is a terrible way of taking control over a person. Mind control, to create a forging voice inside someone's head.*

Then he started Yelling and ranting. Then he told me to sit down by the table in front of him.

"This is the Traditional Discipline system for correcting an individual". Again, now he wants to assure that he is talking with me as consciousness. He as what's his name is because I don't react only responds to his questions and demands. I tell him it's not a name you can't talk to it I am shapeless. He starts cursing. Well to you shapeless I want you to know you stand below who I tell Daniel is and you are this and that person and so and so. If you don't want to go home I want, you to do exactly as I say and if you here my voice in your head you do as that one says. Because I stand above you, okay?! (This is why I have the 5th element section in the Angels Ride) I point out that this is psychological abuse, the other two assistants are there. He tells them to tell him I must that this is by agreement. Girls go I don't believe that you are to tell him what to think. Yes, I am he stated. But we... You two work for me! He cut in yelling. Now do you agree? I asked Big heart. Big heart told me to compile + I have the 5th element section from in the Angel Blueprint. The coming days the following happen as my anger kept on growing, but now I had a lot of practice

*(Speaking to consciousness could as well be saying to you inside of that head)*

I already know Alf and he did not say he would be living in my head, now that could have had a different type of effect on me. He could have painted up a different spirit as well, a paranoid shoot first ask later type of person. This will have importance later in the text.

|                      | Traditional Discipline System                | Counseling Approach  |
|----------------------|--|--|
| Goal                 | Discipline                                   | Problem solve  |
| Problem Ownership    | Supervisor                                   | Employee   |
| Supervisor's Mindset | Document, build a case for termination       | Understand the root cause  |
| Communication Style  | One-way, parent-to-child, ends with a threat | Two-way, adult-to-adult  |
| Outcome              | Fear, anger, resentment                      | Commitment to change behavior and increase performance or, if the employee does not wish to make a change, resignation |

## HOW IT EFFECTS A PERSON

First lets go in what consciousness is, fundamentally it is who we are on the deepest level. It is what can observe thoughts in the mind. It is also what creates thoughts. So far science have not been able

to exactly explain what consciousness are and in psychology it has been discarded. But if it is what we fundamentally are then in a free society it should rule the mind, not vice versa.

*This is from a book that I have written it comes from a Christian paradigm but it explains how putting the mind above you the soul (consciousness) effects a person. It's original purpose was to be able to explain why these scary events that is brought up in the text to Christian's.*

● Soul

I want you to know that I have studied the work of Dr. Ken Wilber and consciousness's is what I call soul to the left. I This seems to have come to me as a mission from god to shed light on a problem that is not visible on an orange or green meme level but you can see on blue meme level and first at a teal level it become visible again. You can see as read on you will have an understanding how human's souls comes in the hands of the Devil. Fear and shame are the tools of the devil and it seems like the last battle is at hand.

Now to the top left here we have the pentagram representing a person free from the limitations of the mind. It has taken in the spirit of the lord and thus have the Devil (pain body, ref Eckhart Tolle) in the lake of fire sort of speak. Now the pain body (ref Eckhart Tolle) is functioning as Satan on this earth so that is what I will call it here. As we go further down it will be a representation of how far from the light that person has strayed. The star without the encircling is a free human spirit still in close connection with the soul and disconnected from the mind, it can easy stray back to its old ways.

The pentagram being your average Joe or a person that has started to walk with Jesus and to follow his way is still in limitations of the mind, standing closer to Satan.

The inverted pentagram is a representation of a person who has made a barter with the devil to value something in the material above his/hers soul, partially giving up the free will given by god to serve The devil as he comes.

The last one is a person lost in total to the devil; there is no free will only the doings of Satan that being creating pain for him/herself and for others in this world. That being the work of lost prophet's singer, the Black Panther shooting and most recently the Indian man that raped an 11 month baby for two hours. The devil wants a system where he gets to control humanity; he wants to make earth his new hell.

## FORCED COMPLIANCE

2017 January news

MOSCOW, On Wednesday voted in favor of the Russian parliament, the Duma, a law that makes domestic violence should be counted as an "administrative offense" rather than a criminal act, whether the violence is not made more than once during the course of a year. 368 MPs voted for the bill, the MPs voted against it and one abstained.

As it is today, those who abuse their partners or their children in Russia sentenced to imprisonment for up to two years. The background is a law that President Vladimir Putin wrote in the summer of

2016. The Act means that those guilty of violence in close relationships is punished more severely than those who abuse such as a neighbor or any other person, which has created an outcry among many conservatives Politician.

## PATRIARCH PARADIGM.

So first of the parent children relationship in this paradigm works over several generations given one overhead per family. So, authority is put on to us by our parents and society is used in a way of peer pressure to keep the cogs of the market turning sort of speak. All they need to do is to convince the overhead of the family not to engage in questioning how things are, here propaganda and commercials comes in. We as consciousness get to only feed an ego identity bound to repeat our parent's behavior of feeling pleased to oversee both them self and others when it's them who is the family overhead. This is the remanence of something old. It becomes like a squid in to society feeding people the views the government/market wants you to view the world. It is to build you in to an insecure little shitty consumer uncappable to make your own decisions, just being feed information on how to be, how to look, how to behave and how to vote. In the end, you will be so helpless without the care from society that you hold on to the addictive bond.

## A TRAPPED PEOPLE

So yesterday I got put thru a management sitting with Monica. Since I knew that I would just read thru my paradigm I mustered thru. It was what a method called Traditional Discipline system for correcting an individual. Monica went thru a tight stringed road on how to think and do as a repeating process of forcing in a cognitive pattern. It felt terrible during still a huge amount of anxiety, anger and cognitive dissonance came to be. Freedom is after all my highest value. Now as a got rid of that running process by reading thru the new paradigm. As I look back this is something I have battling bigger part of my life. Monica calls these dialogs building structures these are not dialogs these are her telling me what do, think and feel. It is her way of taking control, she like to see people as these puppets in the sims or dolls that she plays with. Alf has the exact same way of viewing things I have even found him in the doll cabinet once, while his assistants asked him if he had big plans.

This story I had written by a couple days ago. It fictive I know but it has it's value in it's context to give you an understanding of what's going on.

*I have been watching Star Wars, I was watching and questioning what the Imperial troops are fighting for. What is getting a imperial trooper out of the bed in the morning. What would give a imperial trooper a sense of motivation to work on. The can only be living on other by instruction from there peers. The same by these Japanese that die of work, what could a Japanese dream of going to bed other than to have caught up. A life living out on instruction, a life by work only, **live** by the work **DIE** by the work.*

*What would happen if they got sometime off? Would they have someone instructing them on how to have fun to? Where is the voice of my boss and instructor that I used to have the Imperial trooper ask himself? The rebel sitting by his side says to him: If I was him I would instruct you to kill him.*

- *Well your not him!*
- *How do you know? Imagen if I was. The rebel says.*

*Feeling content with getting the instruction imagen if he was the Imperial trooper soon started to have instruction to kill himself. Now the tug of war inside the Imperial trooper. No I am of great use the trooper argues. Not knowing that if he just would start to do on own freewill rather on his vacation rather just to keep on being under someone else instruction even to ask for it to be so.*

*Fascist states are states where the civil population only live on instruction, from everyday doing to work from birth to death. The scary thing that is happening now is that society in is whole has a population asking for instructions and there are instructions that comes from bad people out there.*

Now Monica had contact with my classmates telling them to carry out instructions from her in this way in exchange of money. That way I could not finish my university exam last time.

This was also used by that fucking NAZI Göran Runfelt on me while I tried to make him change behavior to make him see what he had done wrong, while we were sitting in the room called 'lekis'. Causing something horrible to happen between me and Iva.

Alf flaunting his power from the death bed. Causing me pain on purpose trying to make the history of my situation be due to lack of competence. Trying to push me in to give up the idea of living in Stockholm. He is just out to create pain for me which is pleasure for him. He started also to twist current situation and to give me a bad conscious. This would have moved over to him giving me instructions but clearly, he has no understanding of where his life is being lead.

## REMOVING THE INNER VOICE

To have a foreign spirit comes from knowing someone and not as static information but in as something living... When this with knowing someone that comes with a relationship this creates a mind ghost. This seems to create what is called schizophrenia. That being having someone as for example a parent talking with you inside your head. This is the scar of my parents, now it has healed. Stan with a magisterial exam with a lot of psychology involved, him sharing information with Sara she doing the same as him. Fighting their enemy, **freewill**. I don't know if there is a reward in getting the answer to why schizophrenia but it should be on curing mind control right?

Any how this is a big thing for me... I have found a way to heal myself, finally...

In mind and in belief people are dead to me just static information, living in flesh but never in me. There is a huge violation on a person's freedom to force his/her spirit to live on in someone. Especially when roles are involved, because then it starts to become mind control.

Sara call's this trying to create a dialog, to put her spirit in. Stan getting some sense it to me.

So to explain more in detail, your memory is stored on a biological hard drive. On a hard drive information are static for things to change it has to be rewritten. The same goes for your biological hard drive, that being memory. So static things cannot be living things. In the "reality" we live in, living things in this reality is part of the ever-changing flux of things. So, goes with the mind, just because a person live in the reality of things does not mean that that person lives in your memory. The mind or memory does not have anything that is needed to sustain life. The information you have

of any person is stored on your static memory, your biological hard drive. Imagination is something that is dynamic and alive, it is important to understand that memory and imagination are different things. Just because you utilize the same inner screen/speakers in your mind does not mean that they are the same. Memory is static, imagination is dynamic.

Imagination is something that is in you the consciousness control, but if you start seeing someone alive in your memory part of imagination gets involved to create the illusion of that person in your mind. It becomes a sort of “mind” AI entity. The memory of someone drives the imagination to create the illusion of something living inside of the mind. It becomes a feed loop or a running process that if believed in becomes something strengthened and if you interact with it lives on. But as soon as you see it for what it is, static information that you changed and treat as something living. But in reality it has no life it only feed on your energy. Static dead information is just like stone...

## PROGRESSIVE DISCIPLINE SYSTEM

*This here is taken from a webpage where I was looking on how to describe what Alf did to me.*

Let me get something off my chest. I think the progressive discipline system in place at the majority of companies is, as an enlightened HR executive friend of mine says, “soul-murdering.”

Humor me for a second while I break this down.

The dictionary defines discipline as a “punishment inflicted by way of correction and training.” Punishment. Inflicted. Let that sink in.

If you spend just five minutes searching the Internet for the term “progressive discipline,” you find the craziest things that even good companies have accepted as standard and added to their employee handbooks, such as “Progressive discipline is the process of using increasingly severe steps or measures when an employee fails to correct a problem.” So let me get this straight — progressive discipline expects employee performance to improve by treating the employee progressively worse. Truly, this is the definition of insanity.

Traditional discipline minimizes communication and employs threatening language at every stage. For those of you not in HR, progressive discipline is often a four-step process (verbal warning, written warning, final written warning or suspension, and termination), and HR professionals are trained to end each step with the not-so-hopeful refrain: “Failure to correct the problem may result in further disciplinary action, up to and including possible termination.” Really encouraging, huh?

The problem is that punishment is not instructive. It cannot teach a new behavior or solve a problem. You may be able to stop a person from doing something or even coerce him to act in a more desirable way, but the desired behavior will never be permanently learned unless the person recognizes the impact of the problem and takes ownership to solve it.

So why do so many companies use this system? The simple answer is that they think they need to have it to avoid legal claims. The truth is that an employee who wants to take unfair advantage of the company will do it whether there are policies in place or not. These “bad apples” will cost you, no matter what you do.

The good news is that there’s a better way — a respectful way — that creates a positive employee response and prompts a commitment to changed behavior. And it’s legally defensible.

This approach requires alignment with two key philosophies:

Remember that 95 percent of employees are responsible adults. If a problem develops and is brought to their attention, they will want to solve it.

By using adult communication, showing confidence and trust, and involving the employee in finding a solution, you will get the desired results.

The approach is simple.

First, use adult communication to describe the specific problem, then state the impact. Stating the impact is important because when people become aware of the impact and see how it affects others, they want to fix it. However, it's still important to get to the root of the problem.

In manufacturing, leaders are trained to ask "The Five Whys." By repeatedly asking the question, you can peel away the layers of symptoms and uncover the root cause of a problem. Once you know the cause, it's much easier to facilitate "the employee's" solution.

This chart shows the differences between traditional discipline and this employee-focused, counseling approach:

With progressive discipline, the manager and the employee become stuck in a series of escalating steps, ending in threats and documentation. When you use performance counseling, you treat people with respect and the positive assumption that — as responsible adults — they will resolve the problem.

As leaders in our organizations, can't we take the first step toward creating the kind of workplace that values people, not one that punishes them?
